Members should attend tour

To the editor:

As a Town Meeting member, I thought it was important for me to attend the site tour of Linden Ponds and Lexington Technology Park, given by Patriot Partners.

I was very disappointed and concerned that out of 100-plus Town Meeting members, five so far have taken advantage of the tour.

This to me is a very poor showing, as I think that going to the sites gives you a better perspective of what Patriot Partners is planning for the landlocked parcel. I believe that whether you are for or against this proposal, each Town Meet-

ing member has an obligation to the people of their precinct to at least visit the sites to have a better understanding, as you will be voting on this at some point.

I also want to emphasize that no high pressure or forcible tactics were placed on anyone attending these tours. It was a very informative trip and I encourage every Town Meeting member to take it. You have an obligation.

I understand that Patriot Partners will make times available for these tours to accommodate people's busy schedules.

Gary B. Kasky
Town Meeting Member,
Precinct 6
